Panasonic's AQY217GS Series PhotoMOS Relays Featured in THE EDGE by Future Electronics

Montreal, Canada (mynewsdesk) September 25, 2019 - Future Electronics, a global leading distributor of electronic components, is featuring Panasonic's high capacity PhotoMOS relays in the latest edition of THE EDGE.

The [AQY217GS series PhotoMOS relays](#) are available in an SOP 4-pin surface-mount package. They are capable of handling up to 400mA at 200V in a small package size, and maintain a low on-resistance of 1.8 Ohms.

THE EDGE is the latest e-newsletter from Future Electronics, and is geared toward engineers and buyers looking for new or leading-edge products. THE EDGE comes out twice per month, and each edition features product information, datasheets and videos showcasing the most advanced new technology in a specific area, such as sensing, lighting, or automotive.

Stay up to date with the latest technology in sensing, IoT and connectivity solutions, [subscribe to our newsletter](#). To see the entire portfolio of Panasonic products available through Future Electronics, visit www.FutureElectronics.com.

About Future Electronics

Future Electronics is a global leader in electronics distribution, recognized for providing customers with global supply chain solutions, custom-tailored engineering services and a comprehensive suite of passives and semiconductor products. Founded by Robert Miller in 1968, Future Electronics has over 5,500 employees and operates in 169 offices in 44 countries around the world. Future Electronics is globally integrated, with a unified IT infrastructure that delivers real-time inventory availability and access to customers. With the highest level of service, the most advanced

engineering capabilities, and the largest available-to-sell inventory in the world, Future's mission is always to Delight the Customer®. For more information, visit www.FutureElectronics.com.
