

Book of Secrets with Lance Reddick on the HISTORY Channel

2021-06-03 10:12 CEST

THE HISTORY CHANNEL HØJDEPUNKTER JULI 2021

THE UNXPLAINED WITH WILLIAM SHATNER

Tuesdays from 13 July at 21:00

From the producers of Ancient Aliens and The Curse of Oak Island, The UnXplained with William Shatner on The HISTORY Channel explores the world's most fascinating, strange and inexplicable mysteries. Compelling contributions from scientists, historians, and witnesses as they seek to shed light on how the impossible can happen. Have you ever wondered how

people survive the seemingly unsurvivable? Or why the brain is even more powerful than we dare to realise? Ever wondered what happens to us after we die? Part of Summer of Secrets weeknights from 21:00. S2B (x60)

BOOK OF SECRETS WITH LANCE REDDICK

Thursdays from 8 July at 21:00

Hosted by film and television star Lance Reddick, America's Book of Secrets with Lance Reddick is a one hour, non-fiction series that asks the highly intriguing question: What if there is a book that serves as a repository for America's most closely guarded secrets? America's story can be told in many ways. While much of the history of our country is well documented and widely available, there is another deeper history one that has been shrouded in secrecy and hidden from public view; these are the stories we will reveal. Part of Summer of Secrets weeknights from 21:00. (10x60)

SWAMP PEOPLE: SERPENT INVASION

Continues Wednesdays at 20:05

The Florida Everglades are under siege. An invasion of Burmese pythons is decimating this natural wonder of the south. Entire species of animals are being wiped out. Aggressive, ravenous and incredibly fast-breeding, these pythons have no natural predator to stop them—except man. To combat these serpents, the state created the Python Elimination Program. With alligator season over, Louisiana's best hunters are stepping up to help: King of the Swamp Troy Landry, his sharpshooting son Chase, legendary gator hunter Bruce Mitchell, and big fish wrangler Zak Catchem. S2(8x60)
