

The Intelligent Cycling platform is a great fit for GO fits lockdown initiative #GOFITEVERYWHERE

May 14, 2020 18:00 CEST

Spain's biggest fitness chain joins the Intelligent Cycling Family

Bienvenido, GO fit!

Based in Spain, GO fit runs 20 clubs and remains dedicated to keeping their 250.000 members active even during lockdown.

Offering a wide range of activities both inside and outside the studio, GO fit is quickly adapting to the fitness industry's new normal. This makes our versatile software a great fit for GO fit.

While GO fit members wait to get back in the saddle at their local gym, they can enjoy our play-on-demand content at home, as well as live virtual classes featuring the new Intelligent Cycling Live Player through GO fits digital initiative #gofiteverywhere.

Intelligent Cycling® develops indoor cycling software that keeps riders motivated and moving. Recommended by industry giants like Wattbike®, Bodybike®, Schwinn®, and Keiser®, the Danish company is at the forefront of its industry.

Intelligent Cycling focuses on digital training solutions that meet the needs of club owners, instructors, and club members, both in and outside of the studio.

Services include an intuitive and user-friendly workout platform, on-demand content, streaming of live virtual classes, and VR-ready immersive indoor cycling adventure, The Journey.

Intelligent Cycling® software is used in fitness clubs, gyms, and private homes all around the world.
