## **NNIT is manning up to support future growth**

In 2021 alone, NNIT A/S has hired 200 new employees, and manning up will continue well into the year to support future business growth, mainly within NNIT's strategic focus areas. Currently, we are looking to fill 250 vacancies – within virtually all areas and at all levels.

CEO Per Kogut comments:

“At the moment, we are welcoming many new, smart employees all over the

NNIT world. It is a great joy to meet them in the onboarding process, and I look forward to meeting many more when we can once again travel internationally. It feels great to be growing yet again and to be looking into a brighter future”.

## **250 vacancies to be filled over the coming months**

Half of the positions are in Denmark (HQ), and the other half are distributed across [our many other locations](#). Most new positions are focused within [the NNIT Winning Solutions](#), particularly in relation to our life science segment and our offerings within [Production IT](#), [Hybrid Cloud](#) and [Cybersecurity](#), where NNIT is currently experiencing great momentum; in part due to the general momentum within digital transformation, accelerated by the onset of the Corona virus in early 2020.

“Some positions are of course replacements, but mostly, we’re talking new positions to support business growth within our strategic focus areas – or Winning Solutions as we call them, roughly plus 150 positions at this stage. Our clear aim is to retain our many talented employees while also recruiting new talent,” says Senior VP Brit Kannegaard Johannesen and adds: “We need to keep nurturing talent by maintaining a good mix of old and new talent across all diversity parameters; we believe that creates the best dynamic for the future”.

NNIT extends a warm welcome to all new employees who have joined NNIT so far in 2021.

---

Together we make a mark in business and society; bringing digital transformation to life

The NNIT Group provides a wide range of IT and consulting services internationally.

In Denmark, where the Group HQ is based, we are one of the leading IT companies, servicing both private and public sector customers across all industries. In the rest of Europe, Asia and USA, we are solely focused on companies within life sciences.

Supporting the entire supply chain, we help optimize internal company

processes, production, sales and customer experiences:

We advise, build, operate and support, enabling digital transformation and customers to reap the full potential of their organizations. Our role is to foster innovation and make the mark our customers and we aspire to.

The NNIT Group consists of group company NNIT A/S and subsidiaries Valiance, SCALES, Excellis Health Solutions and SL Controls. Together, these companies employ over 3,000 people in Europe, Asia and USA.
