Delphi advised Image Systems AB (pub) on its issue of a fully underwritten rights issue and on its acquisition of RemaControl Sweden Aktiebolag and Sawco Holding AB

Delphi advised Image Systems AB (publ), which is listed on NASDAQ OMX Stockholm, on its recent rights issue and on its acquisition of RemaControl Sweden Aktiebolag and Sawco Holding AB. The two acquisitions were financed partly by two issues in kind.

Image Systems specialised in high-definition image production, film scanning and solutions for motion analysis with offices in various places in Sweden as well as in Los Angeles and London.

RemaControl develops and supplies equipment which measures, steers and reports every process step in a saw mill.

Sawco delivers unique measuring systems for three-dimensional measurement of timber, 3D-saw optimization and dimensional control of finished products and for sorting and packaging of end products. Today, Sawco delivers to saw mills worldwide.

Marcus Nivinger was Delphi's, lead partner assisted mainly by Fredrik Mörner and Olof Reinholdsson. In addition, a number of lawyers from the Stockholm and Linköping offices assisted in the due diligence process. Stefan Lindh was the lead partner at the Linköping office.

Delphi has expertise in all core areas of commercial law. An important part is the corporate desk, with a large number of domestic and cross-border mergers & acquisitions and an extensive banking, finance and capital markets practice. The firm is also well established in high-tech related legal areas such as IT, telecommunications, intellectual property and life sciences. Additionally, Delphi's public procurement, EU and competition practice is highly respected.

Clients are mainly in Scandinavia, Europe and North America. Delphi cooperates with law firms all over the world and has business in China and Eastern Europe. Delphi has approximately 190 employees of which about 140 are lawyers. Offices are in Stockholm, Göteborg, Malmö, Linköping and Norrköping.
