In *Rancho del Arroyo*, players can experience the thrill of hunting in a vast, vibrant desert where abandoned mine-shafts and dusty roads meet gorgeous vistas and pristine high-altitude lakes. And with five new additions (out of nine in total) to the ever-evolving roster of animal species, such as the Mexican Bobcat, Ring-Necked Pheasant, and Collared Peccary, every hunt requires a different strategy and approach.

In addition to unraveling a century-old family mystery throughout the reserve's numerous story missions, players will also expand their hunting arsenal with the powerful new Couso Model 1897. This 16-gauge pump-action shotgun can carry five shells in its tubular magazine and fire multiple shots in quick succession. Use it to *flush* out Pheasants from their hiding spots -- an all-new gameplay mechanic -- and line up the perfect aerial shot!

“Rancho del Arroyo marks the tenth reserve for *theHunter: Call of the Wild*, and brings a wealth of fun new content for players to discover”, said Sacha Karsenty, Product Owner at Expansive Worlds. “We couldn’t be more excited to finally celebrate this milestone with our dedicated console community.”

### **About *theHunter: Call of the Wild***

*theHunter: Call of the Wild* offers the most immersive hunting experience ever created. Players can immerse themselves in the atmospheric single player campaign, or share the ultimate hunting experience with friends. Since its release in 2017, *theHunter: Call of the Wild* has grown to feature over 60 animal species across 10 unique reserves, and continues to engage over one million monthly active players. *theHunter: Call of the Wild* is available for PC via Steam, Xbox One, Xbox Game Pass, and PlayStation 4.
