## Two students from Beckmans College of Design selected for Milan 2013

Lotta Lampa and Lisa Berkert Wallard, final-year students at the Design Programme at Beckmans College of Design have been selected by the design organisation Tuttobene for the exhibition Work/Shop at Salone del Mobile in Milan. The exhibition Work/Shop is focused on international design talents whose design revolves around sustainability, economy and society.

Lotta Lampa will exhibit A Raisparadise Style\*, a chaise lounge and a lamp, inspired by imaginary worlds, bizarre proportions and her hometown. Lisa Berkert Wallard will exhibit a crochet lamp, inspired by traditional Swedish crafts, and a cupboard, Nate, in which the design process plays the lead role. The cupboard tells the story of how the process comes to life and affects – and is affected by its environment.

Work/Shop is shown in The Magazzini, Via Valenza 2, April 9th-13th 2013.
