## Company anniversary and product news

The Swedish family business Trejon celebrates its 40th anniversary in 2020, and managing directors Anna and Henrik Johansson are currently the third generation at the forefront of the engineering company specializing in the production of municipal and forestry equipment.

To celebrate the anniversary of the company and to show the way of the company in the next 40 years, there will be a firework of new products in 2020 and the first novelties will be unveiled at the Agritechnica in November this year.

Therefore a completely new range of vario snow ploughs will be shown, updated salt spreaders for municipalities, as well as new crane models with longer range on the popular forestry trailers of the "Trejon Multiforest" series.

"Over the past three years, we have consistently invested into product development and into the latest manufacturing machinery in our production, and visitors to this year's Agritechnica will be able to see the result. In addition, the distribution network around the Alpine region is now comprehensively structured. We are very proud of the work we have done over the last few years. ", explains Export Sales Manager Michael Saure the ambitions of this year's trade fair appearance.

The company promises further product launches and also limited special series for 2020, which will be unveiled later this year.

---

Trejon, headquartered in Vännäsby outside Umeå, dates back to the 1940s. Much has happened since then and today we are one of the leading machine suppliers in the Forestry, Construction and Agricultural through a wide network of dealers.

Trejon develops, manufactures and provides products to the Agriculture, Forestry and contracting. By combining a wide range of products with great professionalism and high level of service we give you the best overall solution that creates a sustainable and cost-efficient future. As a stable family company with a long history and experience, who always think long-term, we place great commitment to delivering quality in every step of our mission. In our work, we are inspired by new technology and our customers' needs to provide machines what needs to make your work as simple and good as possible.

Trejon want to be the natural choice for both our partners and employees. With a focus on the environment, quality and modern technology resulting added value and everyone is a winner. Our confidence we create with great commitment, our expertise and our ambition. We are building long-term and stable relationships for a safe living and a sustainable future.

Together we create a good day – a Trejon day.
