Future-Proof Connectivity: IP Explained

Check out the latest episode of the Future-Proof Connectivity vlog series! This time, we catch up with Jamie Adkin, our VP sales EMEA, to find out how IP and KVM work together to deliver real-time access to distributed IT systems, from anywhere in the world.

Tune in to find out more about the advantages of IP KVM, understand which industries are benefitting from the technology, and gain insight into how IP KVM is being used in the field.

Learn more about the benefits of IP KVM by downloading Adder's free whitepaper at www.adder.com/futureproof
