The Franke A1000 Bean To Cup Coffee Machine - Now Available In The UK!

The Franke A1000 FoamMaster Bean To Cup Coffee Machine is the ultimate heavy-duty coffee machine in a range of premium self-service bean-to-cup coffee machines with fresh milk from the leading Swiss manufacturer Franke Coffee Systems.

It was recently showcased at the Hotelympia Show in Excel London for the first time in the UK and is available to purchase or on our 3 year lease rental deal with a whole new era of multimedia video and sound touch screen.

With up to 6 syrups for cold milk drinks, 2 types of milk, a huge 12 litre milk fridge with Franke's superb 'CleanMaster' one-touch cleaning technology and milk foam technology from the FoamMaster family – dense, creamy milk froth that has to be seen to be believed!

Caffia Coffee Group is a leading Franke Coffee Systems bean to cup coffee machines dealer with showrooms in Falkirk and central London; we offer the range UK-wide.

You can see a video of this machine here:
