## Caravan insurance specialist launches YouTube channel for caravanners

[Cover4Caravans.co.uk](http://Cover4Caravans.co.uk) - the caravan insurance specialists - have launched a new YouTube channel aimed at helping both experienced and fledgling caravanners alike with a series of useful videos.

The YouTube channel will feature helpful videos around caravan insurance, including what influences the cost of the cover; the importance of security and storage; and what the different caravan insurance documentation means.

To launch the channel, there is also an in-depth beginners' guide to caravanning with caravan bloggers Richard Easy and Trevor Webdale from website [\(Get Your\) Legs Down](#), two dedicated caravanners who already run a lively video and blog community.

Richard Burgess, Director at Cover4Caravans, says: "We always knew that video was going to form a major part of our strategy to help inform our customers about caravan insurance. Our new YouTube channel puts all our videos in one place and not only informs its visitors, but inspires too!

"We have worked with Trev and Rich before, as we sponsor their TwitterCamp initiative and we have always found the guys very knowledgeable and down to earth. We also share their site reviews and site approach videos on our website, which have proven useful for caravanners.

"We have plans to create a lot more video content with the guys in 2018"

Rich from Legs Down adds: "We are excited to be working with

Cover4Caravans. It feels like we are helping a new wave of caravanners enjoy this hobby. We are looking forward to working with Richard and the team to provide some great information.”

The channel can be found here:
