

Boho Restaurant

Aug 28, 2019 14:56 BST

## Quartiers Properties to open Boho Restaurant at Centro Forestal Sueco property tomorrow, 29 August

On 29 August, the Boho Club restaurant will open, part of the Quartiers Properties' hotel and restaurant project in Marbella's Golden Mile district. The restaurant will be run by the highly regarded chef, Diego del Río. Award-winning concept agency, Stylt Trampoli, is responsible for the restaurant's design and concept.

The hotel, which will have 50 rooms, is scheduled to open later in 2019.

Boho Club will be Marbella's new destination hotel, located less than two minutes' walk from the beach in Marbella and within walking distance of the Puerto Banús luxury marina. The hotel and restaurant will be positioned in the higher price segment, in which the main competitors are currently Marbella Club, Puente Romano and Nobu Hotel.

Quartiers owns 100% of the property in which the hotel will operate, and 80% of the operator company Boho Club, which will run the hotel and restaurant at the property via a rental agreement.

For further information about reservations and events, please refer to the restaurant's website [www.bohoclub.com](http://www.bohoclub.com), and to the company's Instagram account, Bohoclubmarbella.

---

Quartiers Properties operates in Spain in the province of Málaga on the Costa del Sol, a market shown by a number of studies to be the fastest-growing property market in Spain. Growth in the region is due to a combination of increasing domestic demand, the region's climate with over 320 days of sunshine a year, excellent national and international communications, and technological developments enabling more people to live in the region while retaining links to friends, family and work in their home country. Quartiers is active in two main segments; Property Value Creation and Property Development. Both business areas aim to generate value in the current property portfolio in different ways. In the Property Development segment this is done by developing carefully designed concepts for villas and apartments, which are then marketed and sold. The Property Value Creation segment focuses on transforming underperforming properties in a way that leverages each property's unique characteristics, to enable a higher valuation when the property is either sold or revalued for refinancing on improved loan terms.
