NEW ARTICLE ABOUT URBIOFIN FROM URBASER

Our project partner Urbaser recently published an article called “Urbaser integra la transformación de residuos orgánicos en bioproductos para su uso en otros sectores” / “Urbaser transforms organic waste into bioproducts to be used in other sectors” on their website about the #URBIOFIN project and their work in the [#BBI2020](#) project!

Find pictures of the biorefinery and the article in English and in Spanish below:

Article in English: <https://www.urbaser.com/en/2020/08/urbaser-transforms-organic-waste-into-bioproducts-to-be-used-in-other-sectors/>

Article in Spanish: <https://www.urbaser.com/2020/08/urbaser-integra-la-transformacion-de-residuos-organicos-en-bioproductos-para-su-uso-en-otros-sectores/>

URBIOFIN is an innovation project funded by the Bio Based Industries Joint Undertaking (BBI JU) under the EU Horizon 2020 programme and coordinated by “Industrias Mecánicas Alcudia S.A., (IMECAL S.A.)”.

The aim of the URBIOFIN project is to demonstrate techno-economic and environmental viability of an integrated and innovative biorefinery for the transformation of the organic fraction of municipal solid waste (MSW) into new marketable bioproducts, chemical building blocks, biopolymers and additives.

This Project has received funding from the Bio-Based Industries Joint Undertaking under the European Union’s Horizon 2020 research and innovation programme under grant agreement N° 745785
