John Wayne Collectables Adds Nine New Products To Line-up For The 2012 Shopping Season

Clinton Township, Michigan – The first of the nine new products is the 2013 John Wayne Wall Calendar. As you can imagine, this will be a limited time product; once gone, customers will need to wait for the 2014 replacement.

The second new product is a John Wayne on Horseback Fleece Blanket. This polyester fleece blanket has a silhouette of "The Duke" on his horse while on a mountain trail.

The third is a Twin Bell Alarm Clock, with a similar image of "The Duke" as on the blanket used on the dial face of the clock.

Fourth is a set of John Wayne License Plates, each pre-drilled for mounting on your car or truck. Each has an image of John in his favorite cowboy clothing.

The fifth is a John Wayne Toothpick Dispenser, with an image of The Duke on the front, the back and the sides.

The sixth is a folding Campsports chair. It includes a cup holder in the arm rest and a storage sleeve for between uses.

The seventh new product is a set of Hero Ornaments, one of him as a cowboy and one as a soldier.

Eighth is a Double Wall Ceramic Travel Mug. It has two images of John Wayne and is dishwasher and microwave safe.

Lastly, a new DVD set of four movies, each remastered in both bland and

white, and in color.

Unfortunately, the coat rack has been discontinued from the product line.
